

CONTRACT INTELLIGENCE

Contracts auto-renew. Obligations slip. Nobody reads page 47.

One AI-powered contract lifecycle platform that runs entirely inside Microsoft 365 — with agentic AI that flags risky clauses and looming renewals *weeks* before they cost you.

- 9.2% of revenue lost to poor CLM
- In your tenant
- Zero per-seat fees
- Azure OpenAI

CONTRACT PORTFOLIO - RISK RADAR

ContractIQ

MSA — Contoso Logistics

Signed · obligations on track · renews Mar 2027

ON TRACK

SaaS Agreement — Northwind

Clause Risk Analyser: uncapped liability + 120-day auto-renewal

AT RISK

Facilities Contract — Fabrikam

Active - auto-renews in 14 days; unflagged liability clause on p.47

ACTIVE

The AI reads the clauses, not the cover page. The third contract looks clean today - and auto-renews on unreviewed terms before anyone opens page 47.

THE GAP TODAY

Risk hides in the fine print. Renewals fire on autopilot. Contracts live everywhere but your tenant.

Buried & scattered

Critical agreements sit in inboxes, shared drives and filing cabinets. No single source of truth means nobody knows what's been signed.

Silent auto-renewals

Missed termination windows and auto-renewal traps quietly drain budgets. By the time someone notices, the contract has renewed for another year.

Hidden obligations

SLAs, milestones and penalty clauses buried in dense legal text. Teams breach obligations they never knew existed.

DWx ContractIQ replaces the sprawl with one platform that runs inside Microsoft 365 — and adds agentic AI that **flags risk before you've read the page**. The engines advise; your people decide.

THE DIFFERENCE

Five agentic AI engines. Proactive, dynamic, real-time.

They don't wait for a lawyer to open the file — they scan every clause, extract every obligation, and surface intelligence the moment it matters. Humans always make the final call.

Contract Summariser ADVISORY

Turns 50-page agreements into plain-English executive briefs — key terms, obligations and risks, in seconds instead of hours.

Clause Risk Analyser

Flags unlimited indemnity, uncapped liability, auto-renewal traps and one-sided termination — each with a confidence score and a recommended action.

Obligation Extractor

Reads the contract and pulls out every date, milestone and deliverable — auto-populating the tracker with assigned owners and due dates.

Renewal Recommender ADVISORY

Weighs vendor performance, market benchmarks and spend to recommend renew, renegotiate or terminate — with the evidence to back it.

Contract Copilot

Ask the whole portfolio in plain English — "which contracts expire in Q3 with high value?" — and get a structured answer with source references.

THE PLATFORM

Everything you need to control a contract — in one place.

- ✓ Multi-Stage Approval Workflows

— parallel & sequential, approved inside Teams
- ✓ Template Library & Clause Bank

— pre-approved, reusable building blocks
- ✓ Renewal & Expiry Alerts

— automated at 90 / 60 / 30 days
- ✓ Version-Controlled Documents

— SharePoint, full redline history
- ✓ Obligation & Milestone Tracking

— owners, due dates, proactive alerts
- ✓ Vendor & Counterparty Management

— every agreement in one view
- ✓ Financial Tracking

— value, payments, penalties, spend-to-date
- ✓ E-Signature Integration

— DocuSign & Adobe Sign ready
- ✓ Full Audit Trail

— immutable who-did-what-when logging
- ✓ Executive Dashboard

— expiries, approvals, exposure at a glance
- ✓ Compliance & Regulatory Tagging

— POPIA, GDPR, SOX, IFRS
- ✓ Bulk Import & Migration

— onboard the whole portfolio in days

WHY DWX

What third-party CLM SaaS can't do.

Compared with the CLM suites most teams bolt on around Microsoft 365 — Icertis, Agiloft, DocuSign CLM, ContractPodAi.

Capability	DWx ContractIQ	Third-party CLM SaaS
Runs inside your Microsoft 365 tenant	Yes	No
Contracts never leave your environment	Yes	No
Priced per tenant — no per-seat SaaS fees	Yes	No
Advisory-only agentic AI — humans decide	Yes	No
In-region data sovereignty (POPIA)	Yes	No

THE ROI CASE

Measurable impact from day one.

Faster cycle times, lower review costs, zero missed renewals — and audit-ready compliance across the whole portfolio.

60%↓

Faster contract cycle time

Templates, clause bank and parallel approvals compress draft-to-execute from weeks to days.

40%↓

Lower legal review costs

AI clause analysis and summaries handle routine review, freeing counsel for strategic work.

100%↑

Compliance visibility

Every contract tagged and tracked against POPIA, GDPR, SOX and IFRS — audit-ready at all times.

0

Missed renewals

Automated 90/60/30-day alerts and AI renewal recommendations end the auto-renew surprise.

WHO IT'S FOR

A tailored view for every seat at the table.

GENERAL COUNSEL

Risk review in seconds, not hours

"I used to spend three hours on a standard vendor agreement. The Clause Risk Analyser flags the issues in thirty seconds — I just validate and advise."

LEGAL OPS

Throughput without the email ping-pong

"Stop routing contracts by inbox. A governed clause bank and parallel approvals move draft-to-signature in days — and every step is on the audit trail."

PROCUREMENT

No more renewal surprises

"I once found out about a renewal the day after the termination window closed. Now I get alerts 90 days out — with an AI recommendation on whether to renew."

ENTERPRISE-GRADE · MICROSOFT-NATIVE

It runs in your tenant. Microsoft bills you directly.

Built on Azure OpenAI with no black-box dependencies and no data lock-in. ContractIQ runs in your Azure subscription in South Africa North — your contracts never leave your environment, keeping legal hold and privilege intact.

Azure paid direct to Microsoft. First Digital does not mark up Azure.
